

A technical drawing of a mechanical device, likely a testing machine or a specialized transport system. The device consists of a base (2) with two vertical assemblies. The left assembly (7) includes a vertical column (8) with a horizontal arm (4) and a vertical arm (12). The right assembly (1) includes a vertical column (3) with a horizontal arm (5) and a vertical arm (10). A horizontal bar (9) connects the two assemblies. A double-headed arrow (11) indicates movement along the horizontal bar. The base is shown on a hatched ground line.
